Subject: Computer Tip of the Week

This week I will begin sending out a Computer Tip of the Week. It is not an attempt to sell you anything and you can be removed from the email list at anytime by replying to my email with REMOVE in the subject line.

WEEK #1

How can I easily switch between multiple open Windows when using Windows XP and Windows Vista?

Answer:

Tap [Alt] + [Tab] to bring up a pop-up **Task Switcher** window that displays thumbnails of your open applications. While holding the [Alt] key, continuing tapping the [Tab] key until you get to the window you are trying to get to. Let go of both keys.
