Subject: Computer Tip of the Week #10

This is not an attempt to sell you anything and you can be removed from the email list at anytime by replying to my email with REMOVE in the subject line.

WEEK #10

What is Windows 7? How and when can I get it?

Answer:

Windows 7 is the next Operating System being offered by Microsoft after Vista. Windows 7 will look similar to Vista and will work with all the same drivers. So if it works with Vista, it will work with Windows 7.

Most computers Geeks agree that it is an amazing new system and will be worth the switch from XP or Vista.

Anyone who buys a computer today through October 22, 2009 will be given the opportunity to obtain a low-cost or free version of Windows 7 when it is released. Windows 7 will be officially released and sold in stores on October 22, 2009.

Here is the pricing structure. (However, for the next two weeks only, you can pre-purchase at a 50% discount! That is Home for \$50 and Professional for \$99! [CLICK HERE TO PURCHASE FROM MICROSOFT DIRECTLY](#))

Version	Windows 7 Price
Home Premium Upgrade	\$119.99
Professional Upgrade	\$199.99
Ultimate Upgrade	\$219.99
Home Premium Full	\$199.99
Professional Full	\$299.99
Ultimate Full	\$319.99
