This is not an attempt to sell you anything and you can be removed from the email list at anytime by replying to my email with REMOVE in the subject line.

### WEEK #12

#### What is the best FREE Anti-Virus?

**Answer:**

1. [Microsoft Security Essentials Beta Version](#)
2. [Avast Home Edition Free Anti-Virus](#)
3. [Avira Personal Free Antivirus](#)
4. [AVG Antivirus Free Edition](#) (Most popular, but fourth best in protection)

Be sure to uninstall any expired anti-virus programs if you are not going to renew them. They slow down your computer tremendously.

You can install two anti-virus programs at once, however, remember that it will be using your resources and could really slow down your computer. Sometimes the two programs will conflict as well.
